PROFILE SUMMARY

Frontend Developer with hands-on experience building responsive, user-friendly web interfaces using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Skilled in component-based UI development, REST API integration, and modern UI/UX practices, with experience leveraging AI tools (ChatGPT, Gemini, Claude) to accelerate development and deliver polished interfaces on tight timelines.

EXPERIENCE

Frontend Developer — Growwpark Technologies Pvt. Ltd., Hosur

Dec 2025 – Present

- Design and develop responsive, user-friendly web interfaces across multiple client projects using HTML, React, JavaScript, and Tailwind CSS.
- Build reusable, component-based UI elements that speed up development cycles and maintain visual consistency across projects.
- Leverage AI-assisted tools (ChatGPT, Gemini, Claude) to accelerate prototyping, debugging, and code review, cutting delivery time on client tasks.

Web Design Intern — Nextbrain Technologies Pvt. Ltd., Bangalore

Jul 2023

- Built foundational web pages using HTML and CSS with responsive layouts, styling content to improve overall user experience.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Recharts, Responsive & Mobile-First Design

Backend: Node.js, Express.js, REST API Integration

Database: MongoDB

Languages: Python, SQL, JavaScript

UI/UX & Design: Figma, Framer, Adobe Express, Canva, WordPress (Elementor) — wireframing, prototyping, design systems

Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel, Render

Data & Analytics: Power BI, Tableau, MS Excel

PROJECTS

Frontend Live Projects

- Worked on real-time client projects, developing responsive web interfaces (React.js, JavaScript, HTML5, CSS3, Tailwind CSS) and collaborating with designers and backend developers to deliver production-ready features within project timelines.
- Coordinated with cross-functional teams and used AI-assisted tools to accelerate debugging, testing, deployment, and development workflows.

Workflow Management System — MERN Stack

Tech Stack: React 19, Vite, Tailwind CSS 4, Express 5, Node.js, MongoDB Atlas, Recharts, Lucide React, Axios

Live Demo: [View Project](#)

- Built a full-stack employee, project, and task management platform with role-based Admin and Employee dashboards for end-to-end team and workflow tracking.
- Designed and developed 15+ REST API endpoints (tasks, projects, employees, authentication) and integrated Recharts for real-time performance analytics.
- Deployed to production (Vercel + Render) with a fully responsive, mobile-friendly UI.

MINDSCAPE – AI-Powered Mental Health Analysis (Final Year Project)

Tech Stack: Python, Machine Learning, ESP32 Hardware Model, React, TypeScript, Bluetooth 5.2

Live Demo: [View Project](#)

- Built an AI/ML system analyzing social-media activity and wearable-device data to detect behavioral patterns and surface early mental-health insights.

UI/UX Design Projects

Tech Stack: Figma, Framer, Adobe Express

- Designed various apps, landing pages, and websites using Figma, including a Food Ordering App, Movie Ticket Booking App, Pizza Landing Page, Nike Shoe Landing Page, and E-commerce Website.

EDUCATION

B.E. Computer Science & Engineering — Er. Perumal Manimekalai College of Engineering, Hosur

2021 – 2025

CGPA: 8.81

HSC — Selva Matric Higher Secondary School, Bargur

2021

Percentage: 93%

SSLC — St. Paul's Matriculation School, Mallapadi

2019

Percentage: 93%

CERTIFICATIONS

- Python and AI for India 2.0 — GUVI
- Infosys Springboard — Basics of Python; Elements of an AI Architect
- SimpliLearn — UI/UX Design
- Data Analytics | Microsoft Data Analytics — Infosys ICT Academy
- Full Stack Development — NoviTech
